## FOREWORD

This publication begins a series of booklets dealing with the cemeteries of the border towns of Massachusetts, Connecticut, New York, Rhode Island, Vermont, New Hampshire and Maine.

Each booklet will be thoroughly indexed using our own Chedwato method of indexing. This makes each booklet a complete and ready reference by name, location and date.

## INTRODUCTION

This does not presume to be a complete listing of each and every stone in the various cemeteries. However, in most instances ALL stones having a death date earlier than 1850 have been included.

Inscriptions have been copied verbatim and errors in spelling or grammar have NOT been corrected. Every effort has been made to transcribe accurately and carefully. No inscription has been "guessed at".

When a SAR or DAR emblem or flag was on the grave, a notation has been made.

Circa birth dates have been used in the index when the exact birth year was not given on the stone.

In some instances we have additional information in our files on these names. If, in turn, you can identify any of these people..won't you write us.
